

REMARKS

The Abstract, specification and claims have been amended to add a hydrogen atom to the silicon compound (C) of formula 3. Support for these amendments is found in the specification at page 12, lines 8-19.

The minor amendments to the specification on pages 22, 26 and 29 are to correct obvious typographical errors.

Claims 2, 5, 8, 11 and 14 are original claims. Claims 1, 3, 4, 6, 7, 9, 10, 12, 13 and 15 are currently amended.

The claims have been amended to remove multiple dependencies to improve readability and to place the application in better format for examination. Support for the amendment to the claims is found in the originally filed claims and specification.

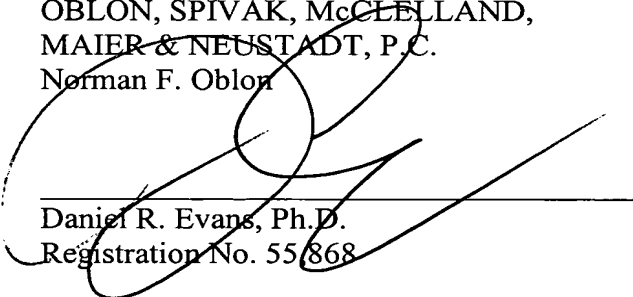

Upon entry of the amendment, Claims 1-15 will be active. No new matter is believed to have been added. An action on the merits and allowance of the claims is respectfully requested.

Respectfully submitted,
